

CraneSignal Phone-First Vendor Call Sheet

Purpose: a worker can view this PDF and call the best public phone number for each apartment maintenance/facilities software vendor.

Opener: Hi, this is Drew with CraneSignal. We are mapping Texas apartment communities showing public maintenance pain signals. I pulled a few accounts your sales team may want. Who is the best person to send that to?

Priority: Tier A first. If support answers, ask for sales, partnerships, BD, or revenue leadership.
