

# CraneSignal Maintenance Software Call Sheet

**Worker goal:** call apartment maintenance/facilities software vendors and offer a free sample of Texas apartment accounts with visible maintenance pain signals.

**Recommended opener:** Hi, this is Drew with CraneSignal. We are mapping Texas apartment communities showing public maintenance pain signals. I pulled a few accounts your sales team may want. Who is the best person to send that to?

**Do not say:** every apartment needs software. **Say:** timely accounts with evidence-backed maintenance pain.

## Call Table

| Tier | Company                  | Fit         | Phone / Email                                         | CraneSignal Angle                                                                     | Action              | Notes |
|------|--------------------------|-------------|-------------------------------------------------------|---------------------------------------------------------------------------------------|---------------------|-------|
| A    | AppWork                  | Very high   | +1 347-909-1604; +1 201-241-3793                      | Free Texas maintenance-pain accounts for their sales team.                            | Call first          |       |
| A    | Leonardo247              | Very high   | 877-995-3662 x513 sales;<br>877-995-3662 x500 general | Maintenance pain + operational risk signals across Texas portfolios.                  | Call first          |       |
